The United States had denied direct intervention in the minitary coup in South Viet Nam. The Soviet Union charges that this country is directly responsible. The record clearly shows that President Kennedy has been antagonistic toward the Diem regime for several months. This may or may not have had an impact on the thinking of the people of South Viet Nam. Whether public opinion or clandestine intervention by the U.S. was responsible for the toppling of Diem and his family is immaterial. Their brutal rule was doomed to failure in any event, just as Castro's rule in Cuba is doomed to ultimate failure and just as the Soviet Union's stranglehold on the Iron Curtain countries is doomed to ultimate failure.

Freedom for all suppressed peoples will prevail sooner or later, and the United States is dedicated to help them, to the extent of its ability, both economically and militarily.

Sometimes the end justifies the means. If the end is freedom, as we have come to know it in America, what difference does it make what strategy we use to achieve that end? If the President's spoken words were responsible for finishing off the Diem family, we commend him. If our secret intelligence agency was responsible, we commend it.

The cold war against communism must go on with all the resources at our command. We must not be misled by trivial matters, such as the sale of wheat to Russia. We must concentrate on the fact that the Communists, whether they are Russian or Chinese, have not changed their goal of world domination of all the free peoples of the earth.

Our engineers are a wily group of guys who spend most of their time dreaming up ways to win your approval. Take the Dodge Polara 500. You'd be hard-pressed to find a car that's got more going for you. Deeply-padded, contour-formed bucket seats. All-vinyl upholstery. Sill-to-sill carpeting. Padded dash. Center console. And lots of other trimmings. But that's only the half of it.

Perhaps our approach to power will further illustrate the point.

With the Polara 500 you aren't baked in on a certain engine. You can choose from a standard 318 cu. in. V8 up to a street-version of our walloping, all-out 426 cu. in. Ramcharger V8. Compromise? Nope. We just feel that a freedom of choice is the surest road to your approval. That's our way of doing business-giving you lots of car and lots

of satisfaction at a price that's hard to quarrel with. Your Dodge Dealer will be glad to demonstrate the point.

For those unfamiliar with the lore of deep-sea mammals a pseudorca is a whale and Marineland Oceanarium has one.

Marineland officials say the pseudorca is an extremely unusual species in the Western Hemisphere. Swifty is believed to be the first one caught alive in the open ocean.

Democrats Are Last Hope For State Tax Bill

LANSING (AP)—Support from minority Democrats appeared to be the last hope today for Gov. George Romney's fiscal reform program to survive anti-income tax sentiment in the legislature.

Republican Senate leaders. reeling from a double defeat that all but killed the income tax bill Tuesday, indicated they will look for such support, but refused to say when.

In the House, Romney's package -with one major changewas headed for floor action after being approved by the GOP caucus in the skintight vote.

But Republican leaders there reaffirmed their oft-stated belief that no program containing an income tax could pass without Democratic assistance.

More Votes Needed

Democratic leaders in both houses sat back and waited for an invitation to talk tax reform. A total of 56 votes is needed to pass a bill in the House. Speaker Allison Green, R-Kingston, said he hadn't changed his estimate that between 12 and 20 Democratic votes would be needed on the Romney program.
